

## **Admissions**

Any applicant with a disability who meets the stated guidelines for acceptance will be approved for admission without consideration of disability. Any documentation of disability submitted to the Admissions Office will be forwarded to the Coordinator of Disability Services and will be filed until the student contacts the Coordinator to request accommodations, adjustments, auxiliary aids and services, and/or protection from discrimination.

Any applicant who has not qualified for admission and who can provide new academic data can appeal the decision using the regular admissions appeal process. The applicant can contact the Admissions Office at 716-286-8700 for more information.
