

## **Writing Center**

The University's Writing Center is housed within the Office of Academic Support. Professional and peer tutors are available to assist students on a drop-in basis with all aspects of the writing process, from understanding assignment requirements, to planning, organizing, and revising a draft. While tutors do not correct or proofread papers for students, they can recommend a variety of strategies and resources to help students with their drafts-in-progress.

More intensive individualized writing support is available on an appointment-only basis for students who meet particular eligibility criteria. Contact the Writing Center coordinator at (716) 286-8075 for more information about the Writing Center services and individualized writing support.
